O Come let us adore Him!

December 2024

At this time of year we are flooded with reminders of the magnitude of Immanuel. The universe-maker, star-breather, ocean-filler, inhabited our finite space with His infinite greatness. He deglorified Himself to become the servant of the ones He created. It is immense! To those who have had their eyes opened, He is nothing less than glorious. Such love, such grace, such stength, could only be taken on by an Almighty God!

This Christmas I want to honour Him by sharing how Immanuel has been with us and gone before us. Hope you enjoy celebrating with us as you read.

You go before me...

In our last Newsletter I wrote about the school trip to Waverley Abbey and how God had provided funding and resources and how the children and staff were deeply inpacted by the day.

Since then the CEO of Waverley has expressed that what we pioneered is alligned with their vision and three other schools in the country are now planning to replicate, and roll out this model in their own counties.

O Come let Us adore Him!

The Vision

The overall vision we had for this project was to equip up-and-coming leaders to encounter what life with God looks like and how prayer draws us close to God, where He speaks.;To ***create*** the opportunity to plan a Prayer Space, based on their experience and to train and lead their peers in creating a new space together.

Where we are at

Yesterday was what you may call an 'Epic day!' I met with John Whittaker who is the CEO of Kings Park Conference centre in Northampton. I asked him if we could use part of their new Spinney to erect the children's planned outdoor Prayer Space. His response was incredible! About 6-8 months ago (at roughly the same time as God share the idea of taking children to Waverley) God had also given them the vision to create a space for children and young people could use. They were unsure exactly what that might entail, but as we spoke, it was clear that what they wanted to see would be met in our Prayer Space.

"It was as if we were preparing it for you", John said.

That same day I met with a couple who have been long-time Lighthouse supporters who have given us £2000 towards building and fulfilling this dream.

Thanks

We thank God for allowing us to walk with Him, as He gathers all men to Himself! For allowing us to rejoice with Him in His splendour and partner with Him in this ministry of reconciliation.

We also want to thank all of you who have prayed for these things and who continue to pray and support us financially. In doing this you are also on this walk and I hope this brings you so much joy this Christmas.

From us to you, a very merry Christmas. xx
